

WE CARE ABOUT WHAT YOU WEAR

"WE DON'T WANT TO JUST PROTECT THE ENVIRONMENT.
WE WANT TO CREATE A WORLD WHERE
THE ENVIRONMENT DOESN'T NEED PROTECTION."

how we began

When Simco Spinning and Textiles Limited was established in 2010 in Dhaka, Bangladesh, it adopted the concept of Sustainable Innovation, where societal, financial and most importantly, environmental factors, have been integrated with ideas to create better solutions for the world.

Instead of watching the waste from \$25 billion worth of ready-made garment products make its way to landfills, Simco Spinning and Textiles decided to reclaim it and turn it into Eco-friendly, Recycled cotton yarn.

The idea was simple: Why waste the waste when it can be Reduced, Reused and Recycled?

That's how CYCLO came to be.

what we do

Under Cyclo, we produce eco-friendly, Re-cycled yarn for the production of Sweaters, T-Shirts, Denim, Socks, Gloves, Towels, Bags etc.

Not only does this process show care towards the environment, whilst being cost effective, the end result is what you would call a "win-win."

products

Towels T-Shirts Knitwear Fleece Socks and Gloves Shopping Bags

upcycling demystified

From the consumption of one ton of CYCLO yarn, compared to virgin yarn, we save...

2408.8	liters		water	256.25	Kw/h of		energy
1787.2	liters of		contaminated waste water	995.05	m2 of		land
116.9	Kg of		CO2 emissions	8.25	kg of		chemical products
